1 [End-user tools for grid computing](#)
 Francisco Hernández, Purushotham Bangalore, Kevin Reilly
 May 2005 WEUSE I: Proceedings of the first workshop on End-user software engineering
 Publisher: ACM

 Full text available: [pdf\(126.72 KB\)](#) [Additional Information: full citation, abstract, references, index terms](#)

Bibliometrics: Downloads (6 Weeks): 14, Downloads (12 Months): 74, Citation Count: 0

The present work describes an approach to simplifying the development and deployment of applications for the Grid. Our approach aims at hiding accidental complexities (e.g., low-level Grid technologies) met when developing these kinds of applications. ...

Keyw ords: automatic programming, domain engineering, domain-specific modeling, end-user tools, grid computing, software engineering, visual authoring tools
